

I am writing to request that the K-Love signal is not replaced by LPFM. This station is very important to me and thousands others in giving us local news and events along with national news. I am a mother of small children and I only listen to K-Love because I can get all that I need to know, along with wonderful positive music. If this station was not available, I would miss out on community happenings. Like myself, I know many families in the area that tune in to K-love and find it to be truly uplifting in such terrible times as these. It would be terribly missed if forced to go off the air here or anywhere it currently broadcasts. Please consider this when deciding on the proposed change to LPFM.

Thank you for your time.
